

The world's fastest diesel engine

350.092mph/563.418kph Bonneville Salt Flats USA – August 2006

Designed specifically for off-highway equipment, the JCB Dieselmax engine is proven in tens of thousands of installations throughout the world – from off-highway vehicles to generators, water pumps to auxiliary engines in commercial vehicles, from Zone II flame-protected environments to marine applications.

Built using the most advanced technology available, the JCB Dieselmax is tomorrow's engine, today:

- Power (63kW/84hp to 120kW/161hp), reliability and low noise
- Maximum performance with unmatched high torque at low speed
- Advanced combustion system ensures Stage 3/Tier 3 compliance
- Future Stage 4/Tier 4 compliance is built into engine design
- Tested in extreme conditions from -40°C to 50°C
- Holder of the world land speed record for diesel cars – 350.092mph/563.418kph
- Worldwide service and support network
